Thank you for purchasing this theme. Please feel free to contact me if you have any questions or inquiries.

---

## HTML

**Oregon** is a modern HTML click through landing page built using Bootstrap 3.1.1 framework. It features fully-responsive design, easy to customize codes and working subscribe form.

`index.html` is the main HTML file of this theme.

The markups are well-commented and has the corresponding heading when you are to edit the CSS file.

For example, if you are to edit the footer in the HTML file:

```
<!-- Footer -->
```

Look for the following in the CSS file:

```
/*-----  
    FOOTER  
-----*/
```

HTML files included:

`index.html`

---

## CSS

`style.css` is the main CSS file for this theme. Aside from the Bootstrap core CSS file, here are the other CSS files included in this theme:

Font Awesome

`fontawesome.min.css`

---

## JAVASCRIPT

This theme has the default Bootstrap's core jQuery. `scripts.js` is the main js file. It is advisable not to edit these files. `scripts.js` contains all the plug-in initialization.

Includes some other plugins:

`jquery-1.10.2.min.js`

`jquery.easing.1.3.min.js`

`jquery.scrollTo.min.js`

---

## PHP

This template includes a working subscribe form. The files are commented to guide you how to change your own email address.

`subscribe.php`

To setup subscribe form:

1. Open `subscribe.php` located in the PHP folder
2. Change email address
